Nava Niv-Vogel
Dana Leavitt

Item	Action
1 Some of the Beech Street design features that were highlighted and discussed were: <ul style="list-style-type: none">- Wayfinding floor finishes with good color contrasts (not monochromatic)- No rails. Instead more discrete wall ledges for support.- Resting benches mid-stair and at the top of the stair.- Companion toilet rooms- Smaller round tables assist with hearing compromised conversations- Simple landscape that will be easy to maintain.	
2 It was noted that seniors often need digital support when operating electronics.
